Vec: engagement scope

Engagement scope (CON-SCP-01)

Issuer: Nivy Advisory s. r. o. · IČO 52 109 338 · Mlynské nivy 16, 821 09 Bratislava

The statement of work defines the deliverables, the timeline, the assumptions and what the client must supply; a missing client input is logged as a dependency, not absorbed silently.

An out-of-scope request needs a signed change order before work starts. A verbal "just add it" from a client manager is not a change order.

The steering committee meets weekly unless the statement of work says otherwise, and decisions are minuted within one business day.

Acceptance criteria are measurable and written down before delivery begins.

Where consultants work on client premises in Bratislava or Košice, the statement of work also names the site rules and the equipment each side provides.

S úctou,

Ing. Tomáš Belko
