Vec: patient privacy

Patient data privacy (HC-PRIV-01)

Issuer: Poliklinika Karpatia s. r. o. · IČO 35 678 901 · Račianska 71, 831 02 Bratislava

Effective: 1 March 2026 · Owner: Medical director

Health data is a special category of personal data under GDPR and the Personal Data Protection Act (zákon č. 18/2018 Z. z.), and it is also covered by the duty of confidentiality in §80 of zákon č. 578/2004 Z. z.

Use or disclose patient data only for providing care, for settlement with the health insurer (Všeobecná zdravotná poisťovňa, Dôvera or Union), or where a statute or a written patient consent allows it.

Disclose the minimum necessary: an insurer receives the billing record, not the full chart.

A supplier that processes patient data — the practice software vendor, the transcription service, the shredding company — signs a data processing agreement before receiving any record.

A personal data breach is reported to Úrad na ochranu osobných údajov SR within 72 hours; where the risk to patients is high, the patients are informed too. Serious care incidents also go to Úrad pre dohľad nad zdravotnou starostlivosťou.

S úctou,

MUDr. Peter Kováč

hlavný lekár
